

Base rate, ρ_e Quant. feature effects, $\phi_e[i]$ 

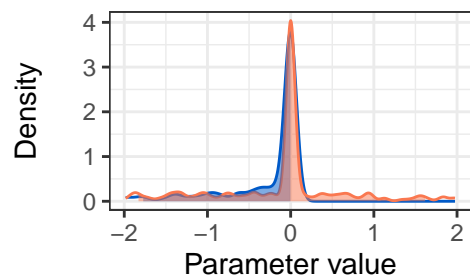

Variable

- $\phi_e[1]$: Max. altitude (m)
- $\phi_e[2]$: Log max. altitude (m)

Quant. feature used, $\phi_e[i] \neq 0$ 

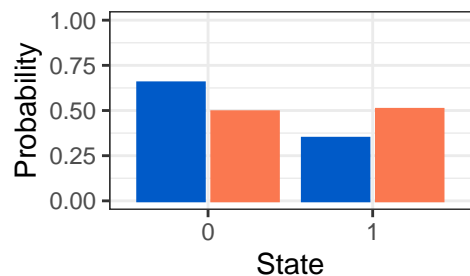

Variable

- use_ $\phi_e[1]$: Max. altitude (m)
- use_ $\phi_e[2]$: Log max. altitude (m)

Cat. feature effect, $\sigma_e[i]$ 

Variable

- $\sigma_e[1]$: Age class (old=0 young=1)
- $\sigma_e[2]$: Growth class (decay=0 growth=1)

Cat. feature used, $\sigma_e[i] \neq 0$ 

Variable

- use_ $\sigma_e[1]$: Age class (old=0 young=1)
- use_ $\sigma_e[2]$: Growth class (decay=0 growth=1)
