

Base rate, ρ_w

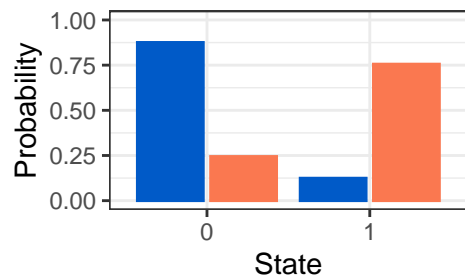

Quant. feature effects, $\phi_w[i]$

Variable

- $\phi_w[1]$: Max. altitude (m)
- $\phi_w[2]$: Log max. altitude (m)

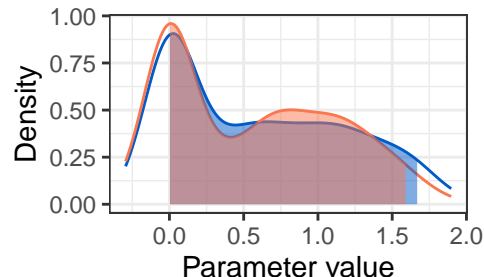

Quant. feature used, $\phi_w[i] \neq 0$

Variable

- use_phi_w[1] : Max. altitude (m)
- use_phi_w[2] : Log max. altitude (m)

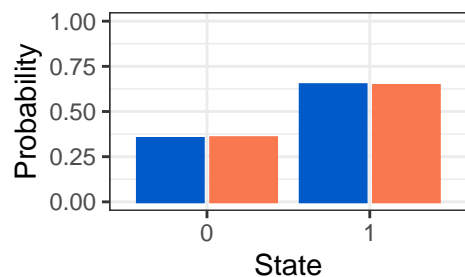

Cat. feature effect, $\sigma_w[i]$

Variable

- $\sigma_w[1]$: Age class (old=0 young=1)
- $\sigma_w[2]$: Growth class (decay=0 growth=1)

Cat. feature used, $\sigma_w[i] \neq 0$

Variable

- use_sigma_w[1] : Age class (old=0 young=1)
- use_sigma_w[2] : Growth class (decay=0 growth=1)
